**Which best describes your position regarding the proposed changes to the Utah fishing guidebook?**

Neither agree nor disagree

---

**Do you have any additional comments about these proposed changes?**

If changing the status of roundtail chub from a protected status to sport fishing species, what financial resources are now dedicated to that effort? I am against spending any public funds to increase the population of the chub unless there are related benefits for doing so. I will attend the Aug 30 mtg in Springville to understand and voice my concerns.

**Which best describes your position regarding the proposed changes to the Utah fishing guidebook?**

Strongly agree

**Do you have any additional comments about these proposed changes?**

I am providing this input on behalf of the Utah Anglers Coalition (UAC). The UAC is an affiliation of many different angler groups and fishing industry representatives in the state of Utah. As a group, we support the proposed changes to the 2023 Utah fishing guidebook as contained in the presentation by Randy Oplinger. We also support recommended changes to R657-13 and R657-14.  
Thank you.

**Which best describes your position regarding the proposed Henry Mountains Bison Management Plan?** Somewhat agree

---

**Do you have any additional comments about the management plan?** I would support managing the herd at a bull:cow ratio lower than 50:100 in order to increase hunter opportunity and herd productivity. Drawing odds are ridiculous and aren't going to get any better unless we find ways to issue more tags.

**Which best describes your position regarding the proposed Strawberry Reservoir Management Plan?** Strongly agree

---

**Do you have any additional comments about the proposed management plan?** I've been happy with my experiences at Strawberry Reservoir and I appreciate the good work being done.
